ler of Burgoyne at Saratoga. But in the mid-states, Lord Howe, aided by the lukewarm ngton at the Brandywine and firmly estab hed himself in Philadelphia, the American metropolis and the rebel capital.

then to York. Washington hovered about Phila-delphia, fought the brilliant but indecisive battle of Germantown, and late in December went into rian. Trevelyan, "bids fair to be the most famous Forge, up the Schuylkill river about twenty miles lesired, for it enabled the Americans to restrict British raids and was, besides, well fitted for

Many civilians insisted that the army ought not to go into winter quarters at all. The fugitive Pennsylvania assembly adopted a remon strance to that effect. Harassed by a thousand cares and dangers, Washington tartly responded that "we have by a field return this day (December 23, 1777) no less than 2,898 men now in camp unfit for duty because they are barefoot and oth-. Numbers have been obliged. and still are, to sit up all night by fires, instead of taking comfortable rest in a natural and common way," because of a lack of blankets. "I can assure these gentlemen that it is a much

pasier and less distressing thing to draw remonstrances in a comfortable room by a good fireside than to occupy a cold, bleak hill and sleep under frost and snow without clothes and blankets." The troops were divided into squads of twelve,

and to encourage the men Washington offered a

reward of \$12 to the squad in each regiment that Snished a log but for quarters in the quickest and most workmanlike manner. Inside the buts bunks were to be built, and the farmers living near the camp were ordered to thrash their wheat order that the straw could be used for bedding. n building many of the huts a considerable hole was first dug, and dozens of these "hut holes" or "cellars," can still be seen. Until a few years ago one of the more substantial huts still remained, but unfortunately it was destroyed by fire. The Daughters of the Revolution in 1905 constructed an excellent facsimile of a hut, over

edly gives a fair idea of the structures Some of the officers found quarters in the scattered farmhouses that stood within or near the encampment. Those who lived in houses without the lines paid a heavy price for their comfort, for anceasing vigilance was required to guard against British attacks. Early one January morning a

Washington's own quarters were at first in a tent or marquee, which is at present in the Valley Forge museum in a good state of preservation, for Americans had not then forgotten how to make the things that would last. To Washington's worries during this awful win-

ter was added the miserable "Conway cabal," a

plot to remove him in favor of Gates. Little wonder that strong man though he was, Washington despaired of earthly aid and turned to heaven for assistance. Isaac Potts was one day passing through a woods near headquarters when he heard a voice, and looking into a thicket discov ered the general "on his knees in the act of devotion to the Ruler of the universe. At the moment when Friend Potts, concealed by the trees, came up, Washington was interceding for his beloved country. He utterly disclaimed all ability of his own for this arduous conflict: wept at the thought of that irretrievable ruin which his mistakes might bring on his country. and with the patriot's pathos spreading the inter ests of unborn millions before the eyes of Eternal

Mercy, he implored the aid of that arm which guides the starry host. As soon as the general had finished his devotions and had retired, Friend Potts returned to his house and threw himself into a chair by the side of his wife. 'Isaac,' she said with tenderness, 'thee seems agitated; what's the matter?" Indeed, my dear, quoth he, if I appear agi-

tated 'tis no more than what I am. I have seen this day what I shall never forget. Till now I have thought that a Christian and a soldier were characters incompatible; but if George Washington be not a man of God, I am mistaken, and still shall I be disappointed if God do not through him perform some great thing for this in all about three thousand men died in the

camp, but the grave of only one is now known Lieutenant John Waterman, a brigade commissary, died in April, and some one erected a rough stone and cut on it the inscription: "J. W., 1778. A marble shaft, 50 feet high, was erected, 11 years ago, by this grave, dedicated "To the Soldiers of Washington's Army Who Sleep at Valley Forge." Dozens of other graves have been discovered, but no others have been identified

## Stunts The NEW HUDSON Six Will Do

Valuation is scarcely noticeable. At any speed, this car rolls forward with the sensation near to that of coasting down a long grade in a heavy car on a smooth road. The New HUDSON Six Phaeton gets under way almost as quickly as anything in existence. From a standing start to a speed of 58 miles an hour in 30 seconds is

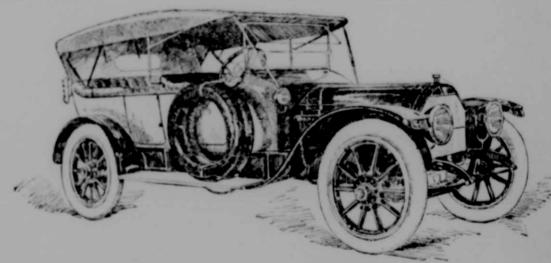

mastered practically every famous hill and grade in Amerira. On almost every grade where climbing contests have been held, the New HUDSON Six Phaeton has

New HUDSON Six was locked into high and driven all over the City, thus proving that in the more of city traffic and the steepest grades, the car performs as flexibly as upon a

On crowded Fifth Avenue, New York, where double lines of automobiles extend fifteen miles long on any busy day, there is a congestion of traffic that is almost indescribable. Through this mass of motor cars, the New HUDSON Six Phacton can be driven with the greatest ease, by an operator who possesses only moderate skill. There is no killing of the motor. There is not that icrk and jolt, common to cars of lower power, and yet the New HUDSON Six is

That all well designed and carefully built Sixes will do many things that add to comfort and safety that no four will do is why sixes are so rapidly increasing and why big four cylinder cars and those costing \$2,000 or more are daily becoming less popular.

More than three times as many Sixes were built last year as had been built up to that time.

In San Francisco, Twin Peaks melt from under the energetic New HUDSON Six. Sport Hill at Bridgeport, Conn., the scene of many trying hill climbs, holds no terrors for

A dozen well known higher priced and (rated) more powerful Sixes than the HUDSON, readily drop into second on Sport Hill. A facetious Bridgeport owner carries a sign on his New HUDSON Six reading, "Excuse my Dust," In Omaha, Denver, Cincinnati, Pittsburg, Minneapolis and St. Paul, in the Rockies, the Alleghenies and in every section of the United States where there are grades that are the despair of motorists, you will find the HUDSON Six holding just a little betterrecord than any other car.

This year the number has been doubled. We know the plans of other makers. Most all builders of medium priced cars now have Sixes under way. Some say the market will be full of Sixes after July or

Ask prospects if they think they should buy a big four, or a four costing \$2,000 or over now when there is every certainty that it will be less popular within the next four

### THE DEATH RECORD

JACOB LINCOLN OURS. Jacob Lincoln Ours, of near Mountain Lake Park, who recently became violently, insane and was sent to Springfield Asylum, near Frederick, ten days ago, died in that institution on Saturday night last, his remains being shipped to Oakland on Sunday. Mr. Ours was aged 51 years and was a farmer, being the possessor of a small farm located near the Park. After the body had been prepared for burial at the undertaking rooms of Mr. D. E. Bolden it was sent to his late home from which the funeral was held on Monday. Mr. Ours is survived by his wife and several

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

## A New Addition to Oakland

## The Eastern Addition

Located at the Eastern end of Alder Street will be platted and offered for sale at a price and upon terms that will enable those of moderate means and wishing to secure a home to do so.

The lots will front 25 feet on Alder Street, with a depth of 132 feet. Purchasers can buy one, two, three or four lots so as to have the size piece of ground they may wish.

A small cash payment with the remainder in monthly payments will be accepted if purchaser so desires.

Arrangements will be made that payments can be made at a local bank for the convenience of purchasers. There will also be plats on file in the office of a local representative as soon as same are completed.

Alder Street is and will be one of the best residence Streets in Oakland and this Extension will in the near future be the main thoroughfare to Mt. Lake and Deer Park

## Stunts The NEW **HUDSON Six Will Do**

O four cylinder car will do all the things of which the New HUDSON Six Phaeton is capable. You can drive on high at the pace of a man's

walk, as slowly as two miles an hour, and do it with the smoothness of a steam engine. You can drive at a mile a minute, with the same comfort with which you ride in an express train.

Vibration is scarcely noticeable. At any speed, this car rolls forward with the sensation near to that of coasting down a long grade in a heavy car on a smooth road. The New HUDSON Six Phaeton gets under way almost as quickly as anything in existence. From a stand-

ing start to a speed of 58 miles an hour in 30 seconds is not impossible. The New HUDSON Six Phaeton has met and mastered practically every famous hill and grade in America. On almost every grade where climbing contests have been held, the New HUDSON Six Phaeton has

shown its mettle.

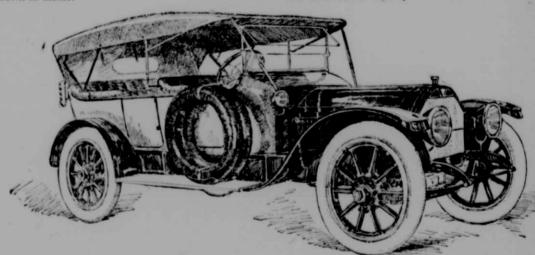

In Kansas City, one of the hilliest towns in America, the New HUDSON Six was locked into high and driven all over the City, thus proving that in the maze of city traffic and the steepest grades, the car performs as flexibly as upon a flat boulevard.

On crowded Fifth Avenue, New York, where double lines of automobiles extend fifteen miles long on any busy day, there is a congestion of traffic that is almost indescribable. Through this mass of motor cars, the New HUDSON Six Phaeton can be driven with the greatestt ease, by an operator who possesses only moderate skill. There is no killing of the motor. There is not that jerk and jolt, common to cars of lower power, and yet the New HUDSON Six is economical and costs less to operate that does a four of mical and costs less to operate that does a four of

That all well designed and carefully built Sixes will do many things that add to comfort and safety that no four will do is why sixes are so rapidly increasing and why big four cylinder cars and those costing \$2,000 or more are daily becoming less popular.

year as had been built up to that time.

More than three times as many Sixes were built last

In San Francisco, Twin Peaks melt from under the ener-getic New HUDSON Six. Sport Hill at Bridgeport, Conn., the scene of many trying hill climbs, holds no terrors for

A dozen well known higher priced and (rated) more powerful Sixes than the HUDSON, readily drop into second on Sport Hill. A facetious Bridgeport owner carries a sign on his New HUDSON Six reading, "Excuse my Dust." In Omaha, Denver, Cincinnati, Pittsburg, Minneapolis and St. Paul, in the Rockies, the Alleghenies and in every section of the United States where there are grades that are the despair of motorists, you will find the HUDSON Six holding just a little betterrecord than any other car.

This year the number has been doubled. We know the plans of other makers. Most all builders of medium priced cars now have Sixes under way. Some say the market will be full of Sixes after July or

Ask prospects if they think they should buy a big four,

or a four costing \$2,000 or over now when there is every certainty that it will be less popular within the next four

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

### DOVE-PIE AND HONEY

BY ROB M'CHEYNE.

"But Ili tell you one thing, young man; you'll find dove-pie and mesquite honey a mighty monotonous diet after the honeymoon.

They were the words with which old Henry P. had closed the interview that had resulted in his giving his daughter to the handsome young westerner who had won her love. That was more than a year ago; now the big, brown-faced ranchman sat in good standing, with his dues all paid | bard-headed old financier had said up to date, and otherwise hears a back there in his luxurious home in

One of the unadvertised reunions of the celebration occured in the confederate section of the camp. A fife and drum corps of men in blue tramped up and down the streets of the confederate part of the city of tents.

They stopped before the tents, played such a fanfare as only drums and fifes can make, summoned forth the occupants and shook hands, threw their arms about the gray shoulders and in a dozen other ways showed

their feelings of friendship. They kept it up for hours and visited practically every "reb" tent. Their reception was as warm as their greeting.

A remarkable coincidence of the Hundreds Expected To Go To Work camp was the meeting of two men of exactly the same name, coming from towns of the same name, but in different states. One fought on the umon side in the battle of Gettysburg, and the other with the confederates.

## Mountain Lake Chautauqua Program

ERE IS JUST THE BRIEFEST OUTLOOK of what may be expected at this well known Chautaugua during the August days. This information what may be expected at this well known Chauwill help you in your decision as to a place of summer vacation. If you are seriously intending to mix a little intellectual uplift with your annual outing, and are seeking a place where at reasonable rates you can find that which educates, elevates and entertains, Mountain Lake Park is the place. Try it this year.

It is not our purpose to give a Programme as intense as in former years. We have had the demonstration year after year that the residents and visitors of Oakland, Loch Lynn, Mountain Lake Park and the surrounding communities will not sustain heavy and extensive programmes nor remunerate the labor or expense involved in them.

The President of the Association has therefore secured the hearty and capable co-operation of the Rev. W. R. Wedderspoon, D. D., pastor of Foundry church, Washington, D. C., and together they are preparing a series of services, lectures and entertainments which it is believed will meet the religious, intellectual and social needs of the first twenty days of August.

While they are not prepared to give in detail the full programme of those Chautauqua days they are securing the services of capable and distinguished men who, by Sermons and Bible Study and devotional hours, will maintain the high and dignified character of previous pro-

In addition to these by a careful selection of ILLUS-TRATED LECTURES and entertainments and by MOV-ING PICTURE films of refining and instructive character we confidently believe that a sufficiently full and valuable programme will be produced to meet the requirements of

## COMMERCIAL Weekly Review of Trade and

Market Renorts

Bradstreet's state of trade says

"Seasonable quiet prevails in the larger lines of trade and salesmen are off the road for vacations. On the other hand, brilliant weather and holiday demands, plus clearance sales, have greatly stimulated retail distribution. What is probably more significant is Bulgars' Plan To Drive a Wedge the fact that sentimest as to the future appears to be more encouraging. There is less timidity and the major note is one of conservative optimism. Buyers are beginning to appear in the various wholesale markets, London.—The end of a week's desperate fighting in the Balkans finds has been done, especially in dry goods

PETRIFIED FALLS IN ALGERIA | Many centuries have, of course, gone | Henry I. to Count Lubienski Boden | HAD NO DELUSIONS AT ALL | anxiously waiting for the sweet reply that he felt sure must be hovering "It's-it's for your clean clothes,

Henry thought it hardly possible such in a Turkish household is much better "In a few days," says a letter in a bliss could be theirs as they sat on off than a servant girl is fully supportstory runs, its stone dwellers of the Vienna paper, "Adelina Patti, born in the river bank in the cool of an Aug ed by Mr. Duckett Ferriman in "Turkey and the Turks." The chief points They met only at week-ends, for urged are that the owner is responsible years, when she made her first appear- he was a toiler in the city, and he for the slave's maintenance and cannot ance on the concert state, she has found it cheaper to lodge near his turn her adrift, that she is treated as one of the family, has light duties, and who were the charmingly dressed girls they saw, "Servants," she said, mean-"Darling!" he murmured again, ing to spare the girls' feelings. But You are a servant. You are "Yes," was the scarcely whispered paid, we are not. We are slaves, not servants. Why did you tell a falsehood NEWEST DRAPERY IN VEILS

RAPE veils for mourning, either in black or white, are not more than a yard or a yard and a quarter in length. When a longer veil is desired -which is not often the case-chiffon bordered with crape is used instead of all crape. The new draperies require a veil almost or quite square and these squares of crape are finished with a three-inch border of the same material, which extends all around the four sides. There are several new drapes, but the two most artistic ideas show the veil falling in a double or triple box plait from the back of the turban, or draped to fall in two points at the back from bonnet shapes. In the latter case the veil provides the trimming for the bonnet

Longer veils of chiffon with crape borders are used on both bonnets and Among some of the smartest styles these long veils provide the drapery for the shape, enveloping it entirely, and fall in ample folds about

the figure. This is for those who desire the extreme in mourning modes. Other novelties to be noted are the use of black and white crape together and of all white crape for any period of mourning. The most striking and beautiful mourning millinery to be seen on Fifth avenue is in white crape. Shapes are covered with this fabric and trimmed with lilies, roses or other blossoms made of it. The same idea is carried out in black. The pure white of white crape and the beauty of the fabric itself make for it a triumph

White Lace Chiefly Used. repe de chine and white lace are list. Abreast-with-Fashion! were an Odyssey, you couldn't be too Fran gurgled. that nowhere is there an atom too ance, the lacing-and tied there in opened at the right side and drawn in popular than the bows first, because a point to that shoulder, while the they're more easily adjusted and, secother side is caught under the left and, because they're so pretty. One The entire lower section is of the prettiest pair as yet brought out bon run beading after the robe is on. of an opaque dark blue stone, a third for there is no other opening and no in two tones of silver set with sapfastening to bother with The elbow phires and topaz, and a fourth in dull sleeves are simply wide puffs of lace gray finished metal set with sapphires. ending in narrow ruffles gathered with Then there are the buckles of tortoise shell bearing silver nail heads and of platinum set with rhinestones and of gold set with pearls.

New Wrinkle. The flugers and hands of elbow length silk gloves wear out, leaving the uppers comparatively new. Where there is a baby in the house these may be turned to good use. Place one of baby's socks on the gloves, the leg part of the sock and the hemmed end of the glove being together. Then cut seeks for the baby after the pattern. Sew carefully into shape with flat seams. Here you have a good lightweight sock only for the cost or trouble of making. The top should be reinforced to withstand the wear and tear caused by safety pins.

Violet Holder.

An extremely simple and practical rubber novelty comes in the shape of a bunch of violets, and is designed for the protection of a gown when the natural flowers are worn. It is made of green rubberized silk, the shade of the viole leaves, and is outlined with a green wire. When worn it effectually prevents the penetration of any moisture to the gown. The wire edge permits of shaping the holder to the bouquet proper, and the latter is then attached to the corsage or wherever else desired.

Quaint Effect.

The streamer trimming for hats is being favored by both French and English women. Among the novel, quaint effects to be considered is one showing an inch-wide, black moire abbon draped from the right side of he hat snugly across the throat to the left shoulder, where it falls unrestraind to the hom of the gown, says the New York Herald. Only picturesque or vouthful women should undertake the steamer trimming.

Useful Cheesecloth.

Cheesecloth is both chean and use-Misses' dress of royal blue crepe ful. ## Stunts The NEW HUDSON Six Will Do

NO four cylinder car will do all the things of which the New HUDSON Six Phaeton is capable. You can drive on high at the pace of a man's

walk, as slowly as two miles an hour, and do it with the smoothness of a steam engine. You can drive at a mile a minute, with the same com-

fort with which you ride in an express train. Vibration is scarcely noticeable. At any speed, this car rolls forward with the sensation near to that of coasting down a long grade in a heavy car on a smooth road. The New HUDSON Six Phaeton gets under way almost as quickly as anything in existence. From a stand-

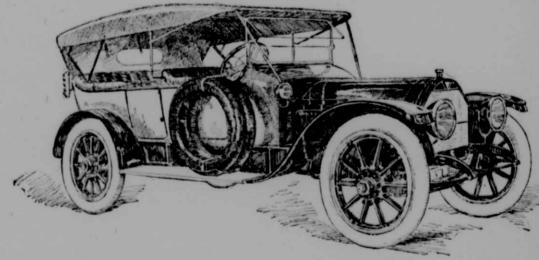

ing start to a speed of 58 miles an hour in 30 seconds is not impossible. The New HUDSON Six Phaeton has met and mastered practically every famous hill and grade in America. On almost every grade where climbing contests have been held, the New HUDSON Six Phaeton has

In Kansas City, one of the hilliest towns in America, the New HUDSON Six was locked into high and driven all over the City, thus proving that in the maze of city traffic and the steepest grades, the car performs as flexibly as upon a flat boulevard. On crowded Fifth Avenue, New York, where double lines

of automobiles extend fifteen miles long on any busy day, there is a congestion of traffic that is almost indescribable. Through this mass of motor cars, the New HUDSON Six Phaeton can be driven with the greatest ease, by an operator who possesses only moderate skill. There is no killing of the motor of ing of the motor. There is not that jerk and jolt, common to cars of lower power, and yet the New HUDSON Six is economical and costs less to operate that does a four

That all well designed and carefully built Sixes will do many things that add to comfort and safety that no four will do is why sixes are so rapidly increasing and why big four cylinder cars and those costing \$2,000 or more are daily becoming less popular.

More than three times as many Sixes were built last vear as had been built up to that time.

In San Francisco, Twin Peaks melt from under the energetic New HUDSON Six. Sport Hill at Bridgeport, Conn., the scene of many trying hill climbs, holds no terrors for

A dozen well known higher priced and (rated) more powerful Sixes than the HUDSON, readily drop into second on Sport Hill. A facetious Bridgeport owner carries a sign on his New HUDSON Six reading, "Excuse my Dust." In Omaha, Denver, Cincinnati, Pittsburg, Minneapolis and St. Paul, in the Rockies, the Alleghenies and in every section of the United States where there are grades that are the despair of motorists, you will find the HUDSON Six holding just a little betterrecord than any other car.

This year the number has been doubled. We know the plans of other makers. Most all builders of medium priced cars now have Sixes under way. Some say the market will be full of Sixes after July or

Ask prospects if they think they should buy a big four, or a four costing \$2,000 or over now when there is every certainty that it will be less popular within the next four

PRICES RIGHT.

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

> Danger of Drifting Into Rut. Most of us have to do very much the same sort of work every day. In this we are constantly exercising one set of muscles or one group of mental faculties. The other muscles or faculties are not exercised. These become flabby or atrophled from disuse, while those become tired from wear. Thus a man grows into a rut. He develops only one part of himself. A hobby prevents all this, it enables a man to keep his mental and physical balance, and when the time comes for him to give up business he has an interest in life that will prevent him from running

## TO GRANTSVILLE.

By SARA ROBERTA GETTY.

Dear little town, so quiet, fair and still; No clanging bells here discords ever strike; No clamorous mobs our hearts with terror fill Just quiet peace, dear old town on the pike

We have our labors, yet we do not shirk, For we are free, untramelled and content; Here Nature shows God's noble handiwork; In every task some hidden beauties lurk; We feast our eyes and count the days well spent.

Well spent, because from every hill and dell, Through fields and lanes of budding green or snow, Is borne to us the message, All is well! The whispering night-winds do the story tell Of that sweet peace that country people know.

Dear little town, we love your quiet ways To others all your years may seem alike But we can tell of peace that that fills our days. Of rest from tumult, din and strife always, While here with you, dear old town on the pike

## Stunts The NEW HUDSON Six Will Do

O four cylinder car will do all the things of which the New HUDSON Six Phaeton is capable. You can drive on high at the pace of a man's

walk, as slowly as two miles an hour, and do it with the smoothness of a steam engine. You can drive at a mile a minute, with the same comfort with which you ride in an express train.

Vibration is scarcely noticeable. At any speed, this car rolls forward with the sensation near to that of coasting down a long grade in a heavy car on a smooth road. The New HUDSON Six Phaeton gets under way almost as quickly as anything in existence. From a standing start to a speed of 58 miles an hour in 30 seconds is

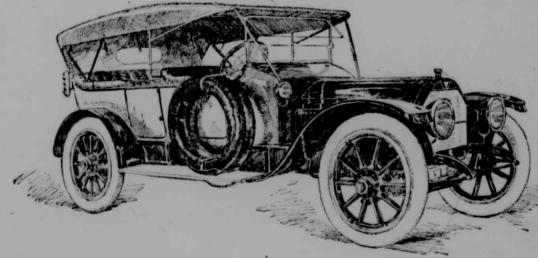

not impossible. The New HUDSON Six Phaeton has met and mastered practically every famous hill and grade in America. On almost every grade where climbing contests have been held, the New HUDSON Six Phaeton has shown its mettle

In Kansas City, one of the hilliest towns in America, the New HUDSON Six was locked into high and driven all over the City, thus proving that in the maze of city traffic and the steepest grades, the car performs as flexibly as upon a flat boulevard.

On crowded Fifth Avenue, New York, where double lines of automobiles extend fifteen miles long on any busy day, there is a congestion of traffic that is almost indescribable. Through this mass of motor cars, the New HUDSON Six Phaeton can be driven with the greatestt ease, by an operator who possesses only moderate skill. There is no killing of the motor. There is not that jerk and jolt, common to cars of lower power, and yet the New HUDSON Six is economical and costs less to operate that does a four of equal power.

That all well designed and carefully built Sixes will do many things that add to comfort and safety that no four will do is why sixes are so rapidly increasing and why big four cylinder cars and those costing \$2,000 or more are daily becoming less popular.

More than three times as many Sixes were built last vear as had been built up to that time.

In San Francisco, Twin Peaks melt from under the energetic New HUDSON Six. Sport Hill at Bridgeport, Conn., the scene of many trying hill climbs, holds no terrors for

A dozen well known higher priced and (rated) more powerful Sixes than the HUDSON, readily drop into second on Sport Hill. A facetious Bridgeport owner carries a sign on his New HUDSON Six reading, "Excuse my Dust." In Omaha, Denver, Cincinnati, Pittsburg, Minneapolis and St. Paul, in the Rockies, the Alleghenies and in every section of the United States where there are grades that are the despair of motorists, you will find the HUDSON Six holding just a little betterrecord than any other car.

This year the number has been doubled. We know the plans of other makers. Most all builders of medium priced cars now have Sixes under way. Some say the market will be full of Sixes after July or

Ask prospects if they think they should buy a big four, or a four costing \$2,000 or over now when there is every certainty that it will be less popular within the next four

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

## THREE MORE CANDIDATES

Messrs. J. A. DeWitt, J. A. Long and George L. Michaels In Field.

The number of candidates for the 14. The meeting next Thursday will by three since the last issue of The Re- girls of the congregation are invited.

worthy the confidence of the people, ed to him by the minister. sets forth his claims in the following The Holy Communion will be admin- the sale of property in the Park. statement:

At the request of friends I announce at 11 o'clock. myself a candidate for the nomination for the House of Delegates, subject to the decision of the Republican primary election. For the general improvement of live promise to support any measure that

Yours very respectfully.
J. ARTHUR DEWITT.

John A. Long. Kitzmiller, July 30, 1913.

Mr. George L. Mlchaels, well known all over the county, is somewhat lengthy in his statement, which is as follows: Having been solicited by many friends in various parts of the county for several months past to become a candidate for the House of Delegates at the coming election, I have decided to become a candidate for this important office, subject to the coming riverse. office, subject to the coming primary many of those who have requested me to take this step, this is peculiarly a time when the voter should be interested in seeing that his county is properly represented in the law-making body of the State for the reason that the coming session of the General Assembly will have to address itself to the passage of much important legislation. of much important legislation for the State generally, and the delegates from

State generally, and the delegates from Garrett county will be charged with the duty of passing measures which shall be for the benefit of the county. The fight for satisfactory liquor legislation will be continued and will not cease until a law meeting the approval of the good people of the State has been placed upon the statute books. My position upon this question is probably experally.

Notice to the Public.

The stock of merchandise of W. L. Shaffer, of Deer Park, has been purchased by the undersigned, who will take possession August 1st, and will be approval of the good people of the State has been placed upon the statute books. My position upon this question is probably experally.

Advertisement. upon this question is probably generally known, and I have only to reiterate statements heretofore made: I am in favor of and shall lend my influence and my vote, if nominated and elected, to the passage of such a law as will give Garrett, county, and the State of the statements heretofore made: I am in favor of and shall lend my influence and my vote, if nominated and elected, to the passage of such a law as will give to the passage of such a law as will give Garrett county, and the State by its qualified voters, the right to say whether or not liquor shall be sold within its boundaries. I do not think I need an introduction to the people of Garrett county, as I was born and reared within the county and have been identified with its agricultural and business interests since my early manhood. identified with its agricultural and business interests since my early manhood and was honored by the citizens of this county in being sent to the legislature of Maryland for the term of 1886 and 1892. I gave my best efforts at that time to the business entrusted to my care, and it has been a source of much gratification that so many of my constituents have highly complimented me on the work I did in the sessions referred to above, and with no desire to laud myself, I may say that an examination of the records of the sessions referred to will disclose the fact that I was instrumental in passing much legis-

ferred to will disclose the fact that I was instrumental in passing much legislation that was for the benefit of the people generally, and I recall with much pleasure the fact that it was largely due to my efforts that Garrett enjoyed for a period of four years the benefits of local option.

If nominated and elected I shall devote my time and attention to the service of the people in an endeavor to contribute to the passage of such measures as I shall believe to be needed for our county and the State, and I therefore respectfully solicit your support at the coming primary election.

District No. 4, July 29, 1913. An automobile party composed of Mr. William Miller, Mr. F. P. Miller and Miss Rose Miller, all of Accident: Mrs. Clara Doehman and Miss Louise Moehlring, of Fort Mayne, Indiana, motored to Oakland vesterday and went to Loch Lynn where the party dined, being joined at that point by Mr. Charles Miller, of Westernport. Later the return was made to Accident. Mrs. Doehman and Miss Moehlring are guests

Senator and Mrs. F. N. Zillman, of Cumberland, arrived in Oakland Sunday afternoon and were met here by Senator and Mrs. H. J. Speicher, of Accident, to which point they were taken, where they were guests for a few days at the home of Garrett county's Senator.

faithful lover, "So this is the revival meetin' as Mira's gone to? Oh, Mira, Mira! This is why you've always pertended to be

Lovers' lane was the name given to a well-worn path that ran through a piece of woods about five miles from the Lamson farm. Hiram made a long detour so as to approach the trysting place from the back of the woods, in stead of from the turnpike. It still lacked fifteen minutes of the appointed time when he came within sight of the blasted elm.

In the gathering dusk Hiram espied Mira, seated behind a tree some twenty paces from the blasted elm, and he heard the whinney of the faithful Dobbin, tethered sowewhere near at hand. 'Seems as if Claude wasn't in such

a hurry to keep his appointment as Miranda was. Aye, lass, I could almost find it in my heart to take and lift ye into the wagon and drive ye straight home before yet get a chance of making a fool of yerself before my eyes. I'd do it-and forget the whole night's business-if it wasn't that I'm bound to everlastingly knock the nourishment out of this fine gentle-

At last it seemed that Mira's patience had given out. Hiram looked at his watch as she got up and started

Serenity and Wisdom of Wife and Mother Dew and Sunshine to Growing Souls.

Wherever the great and beautiful work of art, a home, had come into her paramount existence in that home though her interests and activities have not necessarily been limited to its sphere, declares Ellen Key in the Atlantic. But husband and children have been able to count on her in the home as they could count on the fire on the hearth, the cool shade under the tree, the water in the well, the ribly with female weakness. I had pains bread in the sacrament. Thus upon husband and children is bestowed the experience which a great poet gained from his mother. "All became to her a wreath!" A wreath where every day's toil and holiday's joy, hours of labor and moments of rest, were leaf and blossom and ribbon. The wise educator is never one who is "educating" from morning to night. She is one who, unconsciously to the children, brings to them the chief sustenance and creates the supreme conditions for their growth. Primarily she is the one who, through the serenity and wisdom of her own nagood health. If it had not been for ture, is dew and sunshine to growing souls. She is one who understands how to demand in just measure, and that medicine I would have been in my grave a long time ago."—Mrs. ARTIE E. HAMILTON, R.F.D. No. 6. Don't Poison Baby.

ORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. "CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. II. Fletcher.

# Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

Draped Lace Tunics. the hair line, and little vaseline used, Although perhaps the lace tunic has the hair will not become the least oily a tendency to ago its wearer it has compensating merits which recommend it to women of middle age and even younger women who have a tendency to stoutness. For the close-fitting pointed tunic of black lace cut with the upper part in the form of a coat tends to make the figure look slim in a manner that many, alas! find eminently desirable as years come fast upon them.

> tilly, and when one knows how to drape artistically nothing can be more elegant. On the contrary, nothing can be dowdier than a drapery which seeks to be artistic-and fails lamentably in the attempt. Wash Silk Petticoats. Wash silk petticoats are a useful

The favorite lace employed is Chan-

addition to any wardrobe, be it limited or not. They are made of somewhat heavy silk. Silk and cotton so-called tub silk, is almost as durable as heavy all-silk material and is more durable for petticoats, at least, than cheap all silk. The petticoats are made in striped pattern with scant bias flounces at the bottom. They can be worn with any light street costumes. One of violet and white in narrow stripes could be worn with tan, green or violet outside skirts; one of tan and white would find many uses, and more decided colors would be useful to wear with a few frocks. To Gain Health and Beauty.

A teaspoonful of olive oil before each meal is an excellent thing for the nerves as well as a tissue builder, and is said to prevent the joints from becoming stiff and rheumatic. Outwardly applied, it prevents wrinkling, which is caused by a deficiency of fat in the cells of the skin. In cases of extreme waste of tissue larger doses are advised, as the oil is absolutely pure nourishment. Keeping oil in darkness is the secret of its remaining sweet. Cold is less essential than darkness. Fan Again in Fashion.

perspective and plans. It is not very portion is very much greater. large; but fortunately, small low-cost | The stairway in this little house houses often have advantages over combines a good deal in a little space. larger ones. Three of these advantages are light, sunshine, and air. In a small house, opposite windows are necessarily near together; and the light from one often crosses that of another, although they may be in different rooms. Sunshine, of course, carries light, and it carries life-giving properties besides. Light, airy houses are almost always healthful and cheerful. In crowded cities, houses offering such advantages are always occupied, while dark, dismal houses often go begging for tenants. In this design there are three rooms downstairs and three rooms upstairs, and they are arranged to provide a great deal of comfort and convenience

When a man starts to build a house. he usually has some particular ideas in mind that he wishes to have worked into the plan. Very often these are not practical. They have been extracted, as a general thing, from some other plan, and cannot well be grafted into the new design without spoiling the symmetry. You canvantages that go with the environ- room. ment, which cannot be successfully

CIVIC CLUB SUGGESTIONS

President, Mrs. Tower.

a two and a half dollar gold piece by the Oakland Civic Club as to "What in your opinion is the best work the Civic Club No. 14—I suggest that you use your can do for Oakland.'

tions was to obtain a more general idea as to what the people of the town felt was the most needed work which it is in No. 15—Get a street sprinkler.

No. 15—Get a street sprinkler.

No. 16—Have park made of Oakland the power of the Civic Club to perform, Hotel grounds.
and then to all help in having this work No. 17—Have the Oakland Hotel and then to all help in having this work

You will see the suggestions are all numbered, fill in the blank space in the get at the foundation of the trouble.

The coupons will be opened and count-ed at the Empire Theater, Friday, Aug. would otherwise be used for beautifying

the greatest number of votes will be awarded the prize.

Every one is entitled to a vote. Do not fail to fill in your coupon.

No. 1—The best work the Civic Club could do for the improvement and attractiveness of Oakland, would be to: First, stop the filthy and unsanitary practice of expectorating on our pavements and around our public buildings; second, enforce the laws we now have, viz.: the twelve mile speed limit for automobiles, the curfew law for our boys and girls, the keeping up of cows, horses and chickens; third, welcome the stranger as we would a guest; fourth, establish a bureau of information for the benefit of strangers; fifth, "pluck a thistle and plant a rose;" sixth, that we co-operate in everything for the good of the town and its citizens; seventh, each and all set the examble to show what we would do.

No. 2.—In my opinion Oakland would be greatly improved if the trash and refuse which has been allowed to collect in the Yough river directly where it flows under the bridge leading to the Oakland Hotel grounds, were cleared

Safe Deposit Boxes for rent at reasonable rales.

The blackberry crop is going to small one.

Merchant D. E. Bolden was confined to his home several days since our last.

Wm. Cleveland, of Fairmont, W. Va., was the guest of his mother on Seventh street Sunday.

Albert Ashby and C. B. Johnson reversel and Sunday.

Albert Ashby and C. B. Johnson reversel and sunday.

Dr. and Mrs. Drinkwater and their feast and means are fused with has been allowed to collect in the trass allowed to collect in the Wough river directly where it in tow under the bridge leading to the Oakland Hotel grounds, were cleared away. This is unsightly and a menace to health. Also I would suggest that the debris remaining where the hotel was torn down and where Mr. Charles while passing through Oakland on trains cannot gain a favorable impression of the town from observing the resent state of the hotel grounds.

No. 23—Would the Oakland Civic No. 23—Would the Oakland Civic No. 25—Would the Oakland on the was from Sunday at the debris remaining where the hotel was torn down and where Mr. Charles while passing through Oakland on trains cannot gain a favorable impression of the town from observing the resent state of the hotel grounds.

No. 24—Would it not make Oakland to the Oakland on the debris remaining where the hotel was torn down and where Mr. Charles while passing through Oakland on trains cannot gain a favorable impression of the town from observing the resent state of the hotel grounds.

No. 24—Would it not make Oakland to the Oakland would be to establish a garbage system and be to establish a garbage system and be to establish a garbage system and to have a public park where a drinking foundation of the control of the control of the control of the Club could do to improve Oakland would be to establish a garbage system and to have a public park where a drinking foundation of the Club could do to improve Oakland would be to establish a garbage system and to have a public park where a drinking foundation of the coundary of the Club coul

Albert Ashby and C. B. Johnson returned Tuesday morning from a business trip to eastern cities.

"I'd hate to be anybody's friend and have may friendship as little use as yours have down the part of the woods—and where the woods—and where the marks of strain or carriage. I may

layers. Sprinkle each layer with salt Keep adding to these until you have enough "stock." Into a large glass jar place two ounces of crushed cinnamon; then put in the stock, which has been shaken up every morning for two weeks. When all is in the jar, let stand for eight weeks, covered. It is now ready for the permanent jar. Add two ounces of lavender flowers and one ounce of shredded (not powdered) orris root. Mix well, put into rose jar in alternate lavers with the rose stock and a few drops of oil of roses. Over this pour a wine glass of good cologne, and from time to time add fresh lavender flowers and rose petals.

Card Cases.

The thin lingerie frock demands a cardcase of hankerchief linen, embroidered with a very fine design; those done in eyelet embroidery are the most effective. If you do the tiny flowers and foliage in solid work, pad the petals first with darning cotton and cover this with fine mercerized cotton. Scallop the edges, using the buttonhole stitch, and whipstitch the sides together.

With the one piece frock or tailored costume should be carried a card case of heavy linen. The design is not so fine on these and can be done with white or colors.

For instance, if you choose a card case of natural colored linen, the design can be effectively done in white, brown or dark blue. There are a few designs to be worked with the Bulgarian colors, and these are extremely effective when done in the brilliant hues on a background of tan linen.

Put Loop in Hat.

Women know what a hard task it is to hang up their hats. The office girl finds a new place every day for her bat. it is on the desk, the shelf or pinned on the wall with big hatpins. A new way, says the Los Angeles Ex-

# IDEAS for BY WM. A. RADFORD

with a splendid cellar and a good at- tween porches. rooms seem to be about the size re-rangement that is convenient and in advance and making good time. quired by business men in the smaller towns and country places.

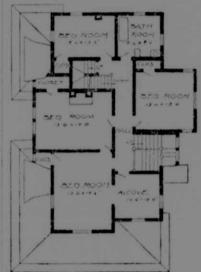

A great many farmers are now building new houses. Farmers have been presperous of late, and they are using considerable money in building. A farmer likes to have a house look well, and to have conveniences for doing the work; that is, live, up-tofarmers do. There are plenty of the other kind, but they are not

building houses like this. This house is about as large as necessary on the average farm. It is about as large as a furnace will heat economically, being 35 feet in width by 49 in length, exclusive of porches. The stairway to the attic is closed so that no heat is wasted in that direction. A hot-air furnace is the best neans of heating up a house of this size. Anything larger should have hot water or steam. There is a great advantage in hot air, from the fact that it furnishes ventilation; most houses in the country are shy

## THE PEOPLE'S FORUM.

## Gospel Temperance A Law. To the Editor of The Republican:

Entered at the Postoffice in Oakland
Md., as Second-class matter.

It is claimed by some that this temperance question is one of expediency, but this often confuses our ideas of its meaning. This is because it is so often used in reference to subjects that have no moral bearing.

A Word for Mr. Casteel.

To the Editor of The Republican.

As the primaries for the selection of our county officials is near at hand and it is all important that we select wisely and well as to candidates for the various and twelve, Acts were passed and well as to candidates for the various and twelve, Acts were passed and well as to candidates for the various and twelve, Acts were passed and well as to candidates for the various and twelve, Acts were passed and well as to candidates for the various and twelve, Acts were passed and the various and twelve, Acts were passed and the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and twelve and well as to candidates for the various and the vari

H. KAHL & SONS have started their brick plant and are making Pressed Brick and Building Blocks of the highest grade at the lowest price. We can guarantee them for all purposes that they can be used, such as Brick Buildings or brick and blocks combined. Ornamental Brick can be seen at their plant. We can color them to suit as desired at a small additional cost. We have a nice pile of them now on hand, selling price \$12.00 per M.

Never be afraid to buy a pressed cement brick or block that comes of the home press.

2nd. Are equal to pressed clay brick. 3rd. Compete with pressed clay brick in price. 4th. Better than common clay brick.

12th. Specified by architects

13th. Uniformly dense. 14th. Clean, sharp corners on edges. 15th. Beautiful texture.

16th. Law absorption. 17th. Absolute fire proof. 18th. Do not deteriorate 19th. Harden with age.

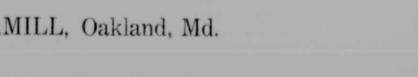

Be Sure You Get These Two Points:

¶ FIRST.—A building must have 253 12 foot stories to secure enough weight to cause these brick to crush under their own weight.

¶ SECOND.—This is the practical way in which any competent architect would figure the load these brick will carry. He would allow a factor of safety of four; consequently he would specify these brick for a building SIXTY-THREE (63) Stories high. Do they build that high in your locality?

5th. Compete with common clay brick in price. 6th. Combine the advantage of concrete and clay 7th. Lay faster than other brick. 8th. Are used by U. S. Government.

Weekly Review of Trade and Market Reports.

Dun's Review says:

"Confidence still holds sway in business circles. Optimism in the West and South has been tempered some what by the damage to corn, although t is the opinion that much of the loss in that cereal will be offset by the gain in wheat. Generally considered, Will Wait Until Emissary Has Had a agricultural prospects continue promising, and the purchasing power of the farming community will be enhanced by abundant harvests and remunerative prices for the leading staples. Current trade reflects the usual summer quietness, yet encouraging reports outnumber those of an opposite character. Most statistics indicate expansion, foreign commerce being larger than a year ago, and railroad earnings for July exceeding 1912. "A slight increase in the volume of new orders is apparent in iron and steel, but consumers are buying cau-

sly. Preparations are being made fall business in dry goods. "Failures numbered 265 in the United States, against 255 last year, and 31 in Canada compared with 20 a

to be distributed into the homes of our many friends and patrons for miles and miles around for Less than Actual Cost of Raw Material to Produce. A sure blessing to the wage-earners of Western Maryland and vicinity. Bargain Chances Unparalleled.

The Entire Stock of KLINE'S UNDERSELLING STORE will be placed on sale for public selling

Exhibition of the Highest Grade of Clothing, Shoes, Hats, Caps and Furnishing Goods for Men and Boys, Ladies' and Misses' Tailormade Suits, Skirts, Dresses, Waists, Millinery, Shoes, and Furnishing Goods; also Trunks and Suit Cases,

Will positively be thrown to the mercy of the public for instant and quick selling to fittingly celebrate our five years' marvelous growth and bargain-giving from cramped quarters to one of the largest business homes in Allegany county. All turned loose in lots to suit the purchaser. There will be some lively doings in the big bargain home during our big "Fifth Bargain Jubilee" that you'll remember for years to come as the largest best and most astonishing sale of the age. The entire building filled to the brim with the very largest and most stupendous display of the newest merchandise you ever saw. Thousands, yes thousands of articles to pick from in every department. The greatest aggregation of bargain chances in our history. Everything is now in complete readiness for our real all round celebration. For five years this store has enjoyed the loval patronage of the people in this section, each year better than preceding one. In this celebration we propose to show our appreciation and demonstrate the value-giving power of the Underselling System by holding this anniversary sale for which we have been lavishly preparing for months and months ahead which begins THURSDAY MORNING, AUGUST 14th, at 8.30 SHARP.

The Greatest Calamity and Massacre of Wrecked Prices Ever Attempted.

Indian Mothers Satisfied Their Chil dren Are Safe From Prowling Animals When Near Their Big Guardian.

ELEPHANTS ACT AS NURSES

It is by no means uncommon in In dia for the children of a mahout (the keeper of an elephant) to be cared for by his animals, says Harper's Weekly. The whole family of the mahout thus become, as it were, parasites to the elephant by whom they earn their living. Instances are not wanting of a mother's systematic placing of her baby in an elephant's care and within reach of its trunk while the mother herself goes to fetch water or to get wood or materials to cook the family meal. It is pointed out that no jackal or

wolf would be likely to pick up and carry off a baby which was thus confided to the care of an elephant. Most

people who have lived in the jungle know how very possible it is for an animal of the first class to carry off a baby when it is lying in a hut or when the mother is unprovided with means to fight off the marauder. Children brought up in the compan ionship of an elephant becomes ridici ously familiar with the big pachyderm and take all manner of liberties with him, liberties which the elephant seems to endure on the principal that they do not annoy him while they amuse the child. One may see, it is averred, a little native child, quite naked, about two feet high, standing on an elephant's bare back and taking it down to the water to bathe, vociferating all the while in most unbecom ing terms of native abuse. On arriv ing at the water the elephant, osten sibly in obedience to the child's com mand, lies down and enjoys himself leaving just a portion of his body, like a small island, above the water. Up on this part of the elephant the child will stand and shout, yelling all the more if he has several companions of his own age also in charge of ele phants, all wallowing in the water around him. If the child should slip mediately replaces him in safety.

The Kind You Have Always Bought.

HIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. II. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of hat H. Flitchers.

Notice Notice.

Having sold my stock of merchandise to Mr. John S. Clary, I hereby solicit for him the patronage of my former customers and bespeak for them fair and honest treatment in the conduct of his business as my successor.

Mr. Clary took charge of the business at my old stand on the 1st day of August of the present year, and I earnestly request that all all persons knowing themselves indebted to me on accounts, will please come forward and settle same at their earliest convenience, not LATER than September 1st, 1913, as my books MUST be closed. My books will be found at my residence next door east of postoffice.

In closing I wish to thank all my friends for their generous treatment for the past eleven yearsthat I have been in business in this place.

Respectfully,

WILLIAM L. SHAFFER.

# Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

CHAPTER XVI.

A Tamer of Lions.

Miss Sapphira stared at Abbott, speechless. So this is what he had meant by wanting the air unstrained by window-screens. Studying, indeed! Indicate the approach of the great mo- you are everything? What would be appalled and humiliated, yet her spirit

"It would be interesting to know what was," remarked Robert with humor so dry that apparently it choked him; he fell to coughing haskily.

Miss Sapphira gave him a look while he was straighing in his second paroxysm. It healed him by suggestion.

"Turn," said Miss Sapphira with becoming gravity. Robert, still under the influence of her thought-wave, solemnly drove her from the scene.

When the last buckle was clasped—"I came out here for a quiet peaceable fishing," said Simon. "I've spent my time hunting horses, and being afraid time hunting horses, and being afraid something might happen to Fran."

"Mr. Ashton took care of me," Fran of Grace, in giving herself to another, wildered, lost to old self-consciousess, Simon cried explosively, "And who temporary supports that held him herself not only to these two but to Gregory Asked Brokenly."

ell. Still, a semblance of was called for, and that is called for, and that is called for, and that is called for as hard day for my ing to her as never before, her voice the said between clearly about the first said the first said between clearly about the first said the first sai

Belongings Must Be of That Color, No Matter the Material.

The brown leather era has arrived. You're not smart at all if the most of your small belongings are not of brown pelt-real leather, walrus, seal or moreeco grain-from your automobile dressing bag fitted with nickel or ivory backed tollet necessities to your strap bracelet holding a small goldfilled enameled watch. Between these two extremes in leather come innumerable conveniences. One of them, the handy pocket kit, comprises a neat leather case containing a large kuife, a small saw, a chisel, a corkscrew and a wrench. Another is a pigskin case containing a flat, flashlike glass, a folding knife, spoon and fork, and a third is a leather combination case lined with silk and containing pockets for handkerchiefs, gloves. veils and pins. Not unlike the last mentioned case, is a silk-lined receptacle for neckties. There are three types of sewing

case from which to choose. The largest is bag shape, closes with a draw string and contains a pin cushion, scissors, cases of needles and reels of thread. Next in size is a satin lined folding case fitted with a stiletto, tape needle, bodkin and two thread reels. Smallest of all is a brocade lined sealskin book holding a leaf of needles and a leaf wound with threads.

Slashed Petticoats. At the sight of the word petticoat

one is apt to start in these days, and say, "What, are there any?" There are still a few and the newest ones are slashed. The slash is made at the ankles on each side.

ated into the homes of our many friends and patrons for miles and miles around for Less than Actual Cost of Raw Material to Produce. A sure blessing to the wage-earners of Western Maryland and vicinity. Bargain Chances Unparalleled.

The Entire Stock of KLINE'S UNDERSELLING STORE will be placed on sale for public selling

Exhibition of the Highest Grade of Clothing, Shoes, Hats, Caps and Furnishing Goods for Men and Boys, Ladies' and Misses' Tailormade Suits, Skirts, Dresses, Waists, Millinery, Shoes, and Furnishing Goods; also Trunks and Suit Cases,

Will positively be thrown to the mercy of the public for instant and quick selling to fittingly celebrate our five years' marvelous growth and bargain-giving from cramped quarters to one of the largest business homes in Allegany county. All turned loose in lots to suit the purchaser. There will be some lively doings in the big bargain home during our big "Fifth Bargain Jubilee" that you'll remember for years to come as the largest best and most astonishing sale of the age. The entire building filled to the brim with the very largest and most stupendous display of the newest merchandise you ever saw. Thousands, yes thousands of articles to pick from in every department. The greatest aggregation of bargain chances in our history. Everything is now in complete readiness for our real all round celebration. For five years this store has enjoyed the loyal patronage of the people in this section, each year better than preceding one. In this celebration we propose to show our appreciation and demonstrate the value-giving power of the Underselling System by holding this anniversary sale for which we have been lavishly preparing for months and months abead which begins THURSDAY MORNING, AUGUST 14th, at 8.30 SHARP.

The Greatest Calamity and Massacre of Wrecked Prices Ever Attempted.

## Browning's Position on the State Aid Road at Friendsville

To the Voters of Garrett County

In order that my position may be clear to the citizens of Garrett county on the question of the proposed State Aid Road between Friendsville and Accident, I desire to say, that in view of the present high rate of taxation in this county, and the exopposed to the construction of this road until such time as the the same. If the county at the present time can afford to ex pend such large sums of money for road purposes I regard it more wise and practicable that such funds be expended on the several important roads in the different parts of the county.

This is the position I would take should the good people of Garrett County see fit to nominate and elect me as one of the County Commissioners, and I desire to further say that in such event I will vote against the said proposed road unless forced to do otherwise by such contracts as may have been entered into by the present Board relating thereto. I am an advocate of, and a strong believer in road improvements, but such im provements should not be made a burden on the taxpayers of the county. At one time I was of the opinion that the proposed Friendsville-Accident State Aid Road could be built at a reasonable cost without burdening the taxpapers, and believing this I appeared before the County Commissioners as one of a committee chosen by the people of Friendsville in advocacy of this road. Since then the tax rate has been greatly increased, and I find that to add the costs of this road to the other necessary expenses of the county it would become burdensome, and make the taxes of the county oppressive and a matter of hardship to the people.

I pledge to the people of Garrett county, if nominated and elected to the office of County Commissioner, that I will to the best of my ability serve the people of the whole county, will show no favor or partiality to any particular section-thereof, and will assure the people a business-like and economical administration of the county affairs

Respectfully yours,

George D. Browning. Friendsville, Md., Aug. 27, 1913.

temporarily web-fingered, the while you attempt to formulate an epigram on Henry James, or discourse glibly

as to why women like men. There is yet another type of hostess who passes with your tea a dribbling sandwich, oozing salad dressing at every pore and containing, half concealed, a malicious, indivisible lettuce leaf. People who thus fail of maintaining the fitness of things at the tea hour have no genuine appreciation of the drink which they dispense.

Upward Strokes of Beauty. When my little girl was born the old colored nurse I got for her told me that if I brushed her hair the wrong way it would make it curly, writes a correspondent of the Pittsburgh Dispatch. Whether that was what did it or not I do not know, but her hair, while it never really curied, has always stood away from her head in a soft, pretty way. Mammy's instructions set me to thinking. I realized that all faces fall as they grew old, and I wondered why it wouldn't be wise to wash and dry the face up instead of down. I not only taught my little daughter to do this-she always wipes upward-but I began on myself. Today, at forty-seven, not a muscle in my face has fallen; there are no droopy lines in it, and no sagging shows at my chin. My eyelashes are always noticed because they curl upward so prettily (they didn't before I began the upward treatment), and my daughter's are just like them.

Best Use of Scent. The best way to use scent, if you are to use it at all, is to put a delicate extract in an atomizer and spray yourself with it. Strong scents are offensive and the most subtle and clusive odor is that obtained from a Showing a New Arrangement of generous use of sachet bags laid Pleats-Trimmings of White Tulle. among one's lingerie, in the drawers with one's handkerchiefs, gloves and veils, and possibly fastened in the Soak four ounces of barley in one front of one's stays or in some inner "The fact of the matter is, I never quart of cold water over night. ## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

## A Summer Vacation At Home

Avoid needless work, especially hot cooking, and plant to get all possible rest and leisure.

There are many ways. For instance, a hot breakfas is uncalled for in summer. There's no excuse for early morning cooking with Post Toasties in the house.

Nothing will please husband and children better than a bowl of crisp, delicious

# Post Toasties

with cream or good milk.

There is pleasure in serving this dainty food and you start the day without work or worry.

With Toasties in the pantry it takes but a moment to prepare a breakfast or lunch that pleases all - you save time and temper.

Order a package of Post Toasties from your grocer and start on your home vacation.

NEEDED SOME TOUCHING UP

A dear old lady who was very "sot" Father Evidently Has His Own Opinion of What an Honest Man Should Look Like.

For months before I met her at the graduating reception of my class in college. I had heard of her as being "a mighty pretty girl." Now if there was one thing which I then held in utter scorn, it was a pretty girl. I carried Franklin's saying of "handsome is that handsome does" to the extreme—and beyond, if I may be permitted the expression, I held that femnine plainness and virtue walked hand in hand, and that no girl who was pretty could also be fitted for the pedestal on which my ideal was raised. So you see Ethel Elwell won no anti-acquaintance homage from me. no anti-acquaintance homage from me on account of her being acknowledged pretty.

At the reception, however, we were forced into each other's company. Most of the fellows except me hap
That is the position some people have and taken regarding that wholesome and refreshing beverage Coca-Cola. They have said a good many unkind things about it and in each instance have had it proved to them that their tales were not true.

That is the position some people have arist, readily, hastening to aud, with the professional smile: "But in you son's case any retouching is about it and in each instance have had it proved to them that their tales were not true.

Finally they seized upon the fact that

NEW LANGUAGE HAS EVOLVED

Americans in the Philippines Have Departed In Large Measure From Familiar Tongue.

Fifteen years ago the American flag first floated over a Malay archipelago in the far Pacific. Spanish was the current speech among the upper classes there. The common people spoke a dozen different dialects-unintelligible one to the other.

We came, saw and possessed, and, shortly affer the flag, boatloads of teachers arrived with the school books and pedagogy of the west.

The teachers brought American literature with them. They brought American songs, American games, American ideas and American idealsand they brought the American manner of speech.

Meanwhile a reflex action was quiet

# Keep Your Blood Cool

## by Right Kind of Food and Enjoy Hot Weather

It's largely a matter of selecting the hot weather diet with reason.

Summer is Nature's season of activity - seed-time, growing-time, harvesttime - a time of expansion, energy-and Man is influenced to do his part - to put forth greater effort because activity is in the very air.

BUT-caution is necessary to avoid excessive heat from combustion (digestion) of heavy, greasy food (Nature's way of generating body-heat in winter), in addition to the heat of the summer atmosphere.

# Grape-Nuts

is the Ideal Food for hot weather because, being largely predigested (and concentrated) in the making at the factory, it is quickly absorbed, a small quantity affording great endurance with little effort in digesting it.

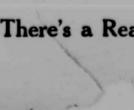

Grape-Nuts, made of Whole Wheat and Barley, contains all the natural elements of these cereals, including the phosphate of potash grown in the grain for rebuilding waste tissue cells, especially of brain and nerves.

Try for breakfast, lunch or supper:-

A Little Fruit; Saucer of Grape-Nuts and Cream; A Soft Boiled Egg; Slice of Crisp Toast, and a Cup of Postum, hot-or iced with sugar and lemon.

Surprising how cool, yet full of healthy energy and "go" one feels on such a meal 40 matter what the weather.

"There's a Reason"

GREAT PICNIC AT CRELLIN.

two sections, hinged at the back, and doors are carried in the top of each section to allow of access to the interior.

SELECTION OF ORCHARD SITE ty will be as follows:

Common Mistake is Choosing Soll That is Too Rich, Causing Wood and Little Fruit.

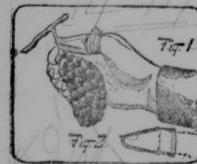

A common mistake in the selection va site for the apple orchard tract, rge or small, is that of choosing a oil that is too rich; that will cause abundant growth of wood, but mighty little fruit. In the valley in which the writer's ranch is located is an orchard of mature apple trees, as pretty a sight from a standpoint of foliage as one could ask to see, which has lately been felled because it did not

deliver the goods. The tract is fat, rich and well watered. Within a gunshot of this tract is a block of winter Nellis pear trees of the same age that for several years past have grossed their owners close to a thousand dollars per acre, says a writer in an exchange. Never was more emphatically demonstrated the fact that soil can be too rich for apples but not for pears. Within a mile of these unproductive apple trees, on thinner and lighter granitic soils, the apple trees bear prolifically to the point of breaking down.

DEVICE FOR PICKING FRUIT

Consists of Thimble, Which May Be Tied to Thumb and Which Terminates in Sharp Blade.

A very convenient device for picking fruit has been designed by a man living in the fruit regions of California. It consists of a thimble, which may be tied to the thumb and which

Por Picking Fruit.

terminates in a blade with a keen edge. The fruit is seized in the hand and the stem is severed by means of the thumb knife. With such a device as this the picking of fruit is materially expedited and there is no danger of tearing the branches or marring the fruit when it is plucked .- Scientific American.

The Apple Aphls. Spraying to kill the apple aphis is a difficult job. The insects work on the under side of the leaves, and this causes them to curl up, and it is very difficult to reach all of them with spray material. The insects mul-tiply rapidly, and the few that are not reached with poison soon bring on another crop.

Worthless Trees. Neglected fruit trees are not worth the ground they occupy, and besides they are an eyesore to everybody, and when infested with worms and insects a constant mesace to the neighborhood. There ought to be a law proof this kind to remain on the farm.

H. KAHL & SONS have started their brick plant and are making Pressed Brick and Building Blocks of the highest grade at the lowest price. We can guarantee them for all purposes that they can be used, such as Brick Buildings or brick and blocks combined. Ornamental Brick can be seen at their plant. We can color them to suit as desired at a small additional cost. We have a nice pile of them now on hand, selling price \$12.00 per M.

Never be afraid to buy a pressed cement brick or block that comes of the home press 11th. Perfectly uniform.

- 1st. Are superior to tamped brick.
- 2nd. Are equal to pressed clay brick. 3rd. Compete with pressed clay brick in price.
- 4th. Better than common clay brick. 5th. Compete with common clay brick in price. 6th. Combine the advantage of concrete and clay
- 7th. Lay faster than other brick.
- 8th. Are used by U. S. Government.
- 9th. Lay easier than other brick.
- 14th. Clean, sharp corners on edges. 15th. Beautiful texture. 16th. Law absorption.

18th. Do not deteriorate. 19th. Harden with age.

12th. Specified by architects.

13th. Uniformly dense.

17th. Absolute fire proof.

Be Sure You Get These Two Points:

FIRST.-A building must have 253 12-foot stories to secure enough weight to cause these brick to crush under their own weight. ¶ SECOND.—This is the practical way in which any competent architect would figure the load these brick will carry. He would allow a factor of safety of four; consequently he would specify these brick for a building SIXTY-THREE (63) Stories high.

Do they build that high in your locality? H. W. KAHL & SONS, Oakland, Md.

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard' ware. Ask us for estimates on your next con-

SCENES ATTENDING IMPRESSIVE OCCASION WITHOUT PARALLEL IN THE LAST CENTURY.

GIST OF PRESIDENT WILSON'S POLICY

No armed intervention. Strict neutrality "forbidding the exportation of arms or munitions of war of any kind from the United States to any part of the Republic of Mexico."

Under no circumstances to "be the partisans of either party to the contest that now distracts Mexico, or constitute ourselves the virtual umpire between them."

To urge all Americans to leave Mexico at once and to assist them to get away in every way

To let every one in Mexico who assumes to exercise authority know that this government "shall vigilantly watch the fortunes of those Americans who cannot get away and shall hold those responsible for their sufferings and losses to a definite reckoning.' 

#### GAMBOA'S OPINIONS OF

WILSON PROPOSALS

That the proposal of an armistice as her enemies."

## SENATOR H. J. SPEICHER **SWEEPS THE COUNTY**

Has Majorities In Every District Except His Late Opponent's and First Precinct of No. 8.

Senator Harvey J. Speicher of Accident, overwhelmingly defeated Mr. N. R. Selby for the Ropublican nomination for State Senator in the primary election held throughout Garrett county on Monday, carrying every district in the county except No. 2, Mr. Selby's home district, and the first precinct of District No. 8. Senator Speicher's total vote was 1110, while Mr. Selby has

Senator Speicher's friends are jubilant at his success and as soon as the result of the election had been definitely determined many of his opponents voluntarily offered their support and promised to do everything they can to insure his election at the polls in November.

Messrs. Elliott C. Harvey, of District No 8, and William W. Savage, of District No. 2, are two of the successful candidates for the House of Delegates. Around these two men Republicans from every section of the county can and we predict will

rally and give them large majorities at the November election. Mr. Bert C. Scott, of District No. 14, is the successful candidate for Sheriff, defeating all of his six opponents by majorities ranging from about 200 to more than 600.

The office of County Commissioner was much sought by five energetic candidates, the successful ones being Mr. D.M. Dixon. present incumbent, and Mr. A. Clyde Smith, a former commissioner, both of whom were nominated after a spirited contest.

Mr. Albert G. Ross, for many years Clerk to the County Commissioners, defeated Mr. Adams, his lone opponent, by more than 300 votes.

The Treasurership goes to Mr. Christian A. Beachy, of District No. 3, who had no opposition in his section of the county and as a natural consequence secured large votes in every one of the lower districts.

The County Committeemen elected are Albert Ashby, former State Senator W. McCulloh Brown and George Geissman.

Following is the official vote as canvassed by the Board of Election Supervisors yesterday at the court house, when all members were present:

STATE SENATOR HARVEY J SPEICHER

## SENATE PASSES TARIFF BILL BY VOTE OF 44 TO 37

LaFollette and Poindexter Support Bill On Final Passage.

WASHINGTON, Sept. 10. - Before the Senate four months to the day from its introduction, the Underwood-Simmons tariff bill was passed by that body at 5:40 o'clock last evening by a vote of 44 to 37. Senator La Follette, Republican, and Poindexter, Bull Mooser, supported the bill on final passage, and Senators Ramsdall and Norton, Democrats, of Louisiana, voted against it. Senator Burleigh, of Maine, absent on account of illness, was not paired, the Democrats not finding it convenient to make a pair. Senator Gronna, Republican, of North Dakota, was paired on all amendments with Senator Lewis, of Illinois, but his release was granted for the final vote, so that Gronna stands in the record as absent and not paired.

The first break in the party solidity came when the name of LaFollette was called. Without attempt of being demonstrative, but in a firm voice that senator voted "ave."

The occupants of the galleries broke out in applause and vigorous hand clapping, no effort being made by the president to check the out burst although it was plainly a violation of the rules and the tradition of the Senate.

When Senator Poindexter added his vote to the Democratic column the demonstration again broke out in the galleries. The occupants manifestly were in sympathy with the Democratic

SYNOPSIS.

bott that she is the famous flon tamer. Fran Nonparell. She tired of circus life and sought a home. Grace tells of seeing Fran come home after midnight with a man. She guesses part of the story and surprises the rest from Abbott. She decides to ask Bob Clinton to go to Springfield to investigate Fran's story. Fran enlists Abbott in her battle against Grace. Fran offers her services to Gregory seen enlists Abbott in her battle against Grace. Fran offers her services to Gregory absence of Grace. The latter, hearing of Fran's purpose, returns and interrupts a touching scene between father and daughter. Grace tells Gregory she intends to marry Clinton and quit his service. He declares that he cannot continue his work without her. Carried away by passion, he takes her in his arms. Fran walks in on them, and declares that Grace must leave the house at once. To Gregory's consternation he learns of Clinton's mission to Springfield. Clinton returns from Springfield and, at Fran's request, Ashton urgest him not to disclose what he has learned. On Abbott's assur.

#### CHAPTER XVIII.-Continued. You can prove she's no breezily.

"Abbott," Mr. Gregory gasped, as he began to realize the compromise that was offered, "you have always been my friend—and you have been interested in my charities—you know how important my secretary is to my work.

"Abbott," Mr. Gregory gasped, as he began to realize the compromise that was offered, "you have always been my friend—and you have been interested in my charities—you know how important my secretary is to my work.

"And you'll take me in her place,"

"Abbott," Mr. Gregory gasped, as he began to realize the compromise that was offered, "The sis to officially offer you the position of bookkeeper at my grocery store, now that Hamilton Gregory has decided to make Fran his secretary. Come over early in the morning and important my secretary is to my work.

"And you'll take me in her place,"

"The past will be forgotten," said position of bookkeeper at my grocery store, now that Hamilton Gregory has decided to make Fran his secretary. Come over early in the morning and important my secretary is to my work.

"The chic shirtwaist the washable."

"No starch" is the violation of bookkeeper at my grocery say you love? What are those myster flows Springfield interests?"

"And you'll take me in her place,"

"And you'll take me in her place,"

"The chic shirtwaist the washable."

"No starch" is the violation of bookkeeper at my grocery say you love? What are those myster flows Springfield interests?"

"And you'll take me in her place,"

"And you'll take me in her place," It is true that I did wrong, years ago spoke up Fran decidedly. -very wrong-it is true that I bitterty-what shall I say?-antagonized the ly. "It's too late now, for I shall Gregory looked up, and marked interests at Springfield. But that was tell-" tong ago. Am I to be punished now-"

and forcibly, "I have nothing to do promise. Yes, I'll dismiss her. Yes, this thing here?" He flung the note with any punishment, I have nothing to do with demanding the release of your secretary. I am a mere agent of the interests, sent to you to demand that your secretary be dismissed in the morning; and if you cannot see your way to promise me now that you will dismiss her, my office is ended. if you can promise to send her away, I give you my word the transactions shall be forever hushed up, so far as we are concerned. If you cannot promise, all will be revealed at once."

"In just ten minutes," said Robert Clinton, consulting his watch. Grace stood looking at Gregory as if turned to stone. She had listened intently to every word as it fell from

Abbott's lips, but not once had she turned her head to look at him. "You are cruel," Gregory flared out, "you are heartless. If I send away the only one who is in perfect knowledge and sympathy with my work-

Then you refuse?" "Of course I refuse. I'll not permit the work of years to perish because she shall go! Dainty Flowered Hatpins. The methods of making flowered ornamental hatpins is easy. An orfinary hatpin, with a round or pearshaped top, such as is bought for a penny or two, is utilized. The head of the pin is first swathed in wadding, and then covered with colored silk or satin, on which should be embroidered colored beads to represent the center of the flower. Pieces of ribbon are next taken to form the petals. Such flowers as poppies, daistes and roses are particularly becoming. The result when finished is eminently satisfactory, and often adds a pleasing dash of color to the gen-

Ottoman Revived.

There is a revival of the old-fashoned ottoman in the house furnishing realm. It comes in all sorts of shapes and sizes and covered with all manner of silken and tapestry stuffs. One of the newest ideas is found in the ottoman made especially for the apartment house dweller.

The ottoman is hollow within and has a top that raises up, showing a convenient little apartment inside, where overshoes may be put away or other small articles stored in the house where every inch of space is valuable.

## Why You Should Buy Good Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing-a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-

For economy in space and careful last inch to advantage, the house design here shown is exceptionally good. that is light, airy, well ventilated, and It is that of a medium-sized squarebuilt house, 24 by 30 feet in ground

These dimensions may seem rather small to work into seven rooms, besides a good bathroom, plenty of closets, and a good lower hall with an open stairway. Yet these rooms are as large as the average rooms in new houses, as houses go at the presant time; and they are a good deal larger than some. Years ago, rooms were larger; but that was when building material and labor were very much cheaper than they are now. A builder can almost tell the age of a house by the size of the rooms. But there are other contributing causes. One is that we understand building better, and it is not necessary to build so large to get the same amount of comfort. As one lady expressed it, "I have learned to like my small thing, and I do not have to walk so

We have learned how to ventilate in new houses is better than the air in large hooms in houses built 20 or 30 years ago. One reason for better ventilation is that houses now are

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 178 West Jackson boulevard, Chicago, Ill., and only anclose two-cent stamp for reply. cake and a few candies may be all right by way of variety, but you canplanning of the rooms to utilize the not live on such things. You build a good, solid, plain,

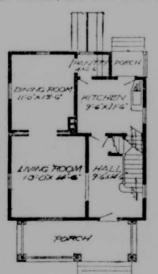

kitchen; there are places for every. easily heated, and you have somethins to be satisfied with as long as you live. But you let some architect coax you into building some fancy gothic houses so that the air in small rooms arrangement, or add a lot of gewgaws to an otherwise sensible plan, and you will have a job of alterations on your hands before many years.

A study of the rooms in the present set up well from the ground. It is a design will convince anyone that this rare thing to see a new house less | plan offers a good deal of comfort for

of them are more than four feet up. the cellar is in itself a splendld ven- necessary space

First Floor Plan.

ter heating apparatus for a house of

Another improvement in the modern house is in making larger chimneys and putting more flues in them. There is a constant current of air going up through the chimney. If a flue is built right, it works night and day, purifying the air in the house. It does not make any noise, and we are likely to forget that it is there; but the work goes on whether we know it and appreciate the fact or not. Thou- thus allowing an air bubble to enter and the cleft is wedged open with sands of people owe their lives unknowingly to just such protection.

I know families who habitually sleep with the windows all down tight. You may pass their houses at any time of day or night, and never see a window open. They trust in Providence to supply fresh air, and they never know whether the order is properly have confidence in somebody or some-

# THE GREAT GARRETT

sion men and exhibitors. They boomed the Garrett county fair. They returned home and are busy at work to make our home and are busy at work to make our

There will be plenty of attractions. Shearer will receive ordination to the a ballot is almost as old as the history

other, because they have become more educated.

The ballot in its inception in the Middle Ages was an instrument for the protection of property. At the time of Miss Brent, very few women had property. Now, a very considerable number of women own much property The property laws have responded and today in Maryland, women in this respect stand before the law equal to men. With the acquisition of the property, came the demand for the instrument for its protection, the ballot. Up to the Colonial period, went to school, only men understood children well enough to teach them how to read and write. The women were at home, doing the house work and earlier for the house work and earlier for woman suffrage organizations, and many more whose names we have been unable to get. New York, New Jersey and Pennsylvania legislatures have already passed the bill, and so the sentiument for woman suffrage is coming very close. The campaign in Maryland has been an educational one, and this is our slogan: "Votes for Men on the question of Woman Suffrage," and "Votes for Wemen."

The Dollow Work and as thight from an auto trip to Mr. Mr. Naylor's former home unable to get. New York, New Jersey and Pennsylvania legislatures have already passed the bill, and so the sent timent for woman suffrage is coming very close. The campaign in Maryland has been an educational one, and this is our slogan: "Votes for Men on the question of Woman Suffrage," and "Votes for Women."

The Question of Woman Suffrage organizations, and the various suffrage organizations, and many more whose names we have been unable to get. New York, New Jersey and Pennsylvania legislatures have already passed the bill, and so the serious suffrage organizations, and Pennsylvania legislatures have already passed the bill, and so the serious suffrage organizations, and Pennsylvania legislatures have already passed the bill, and so the serious suffrage organizations, and Pennsylvania legislatures have already passed the bill, and so the serious difference of the work of the va well enough to teach them how to read and write. The women were at home, doing the house work and caring for the children. Then the men went to war with England; there were not sufficient numbers of men to keep the schools going; and when the world needed the work of women in the schools, it was found out that women had sense enough to the children how to read and write. Now even in the smaller towns, Hagers town, Easton, Salisbury, we have from fifty to three hundred workers grouped; until in the cities, we have several thousand under one roof. It is impossible for an employer to know his employees. They are known to him only out that women had sense enough to by their number on the pay roll. They teach children how to read and write. may be men, women or children. Only following the colonial period, we find too frequently they are children; for girls in the schools, and some women school teachers. In 1817, a very wonderful thing happened. A textile mander of the greatest levelers that we have. This equality is indicated by the number of industrial accidents among our will be field in Hamill's Hall, Oakland, chusetts. These new machines were of industrial accidents among our chine was put up in Falls River, Massachusetts. These new machines were too big to be put in a corner of the kitchen or under the back shed, and so a special building was made for them, which we now have come to know as a factory. Women could weave cloth much better than men. Every inducement to do the old work in the new way. One woman ventured—Hannah Border—then more and more, until today we have 600,000 women textile workers alone in the United States. In 1861, the men again went to war, and there was not a sufficient number of people to keep the stores and offices going. When the world needed the work of women outside the home in stores and factory, in the betts overhead, if they are not protected; the skirts get caught in the wheels of machinery, if they are not protected. Women face the same conditions that men do, and need equal protection. You may think that I over emphasize the matter of accidents. In the stores and offices going. When the world needed the work of women outside to industrial accidents among our women. During a conflagration, or after a mine explosion, the bodies of machinery to incharge of the Fair. All members of the association are invited to attend this meeting.

world needed the work of women outside the home in stores and factory, then the world found out that women had sense enough to do that work. With their recognition as an economic factor, came the elevation of woman in social status. To meet all the new issues, women found they must be better educated. Following the Civil Warmore and more girls entered school until today, we are graduating from our high schools two or three times as many girls as boys. Were we to add women to the electorate we would not have a more illiterate electorate; on the contrary we would have proportionally a much better educated electorate.

With their factory work and with their education, a new ideal came to women, an ideal that men had had for a great many years—the ideal of group action, Men have have been chuseleffer, fished together, ever since the primitive days.

Man have been expected for several were and factory, then the work of the entire Civil war.

The following six industries lead all the entire Civil war.

The following, is industries lead all the employment of women. C'othing, canning, tobacco, straw hat industry averages \$5,25 per week, the highest average per week in any of the six named. When the highest average in one of our greatest industries is only \$5,25 per week, surely it is time to stop talking about the electorate; on the contrary we would have proportionally a much better educated electorate.

With their factory work and with their education, a new ideal came to women, an ideal that men had had for a great many years—the ideal of group action.

Men have hence the primitive days.

women in considerable numbers are asking for the ballot. There are two very good reasons for this; one, because women have acquired property; the other, because they have become more uses the ballot.

The mother's primary work may do not know how strong the movement is in this state. There are work movement is in this state. There are work movement is in this state. There are two very good reasons for this; one, because when have acquired property; the other have become more uses the ballot.

## ROBBER BEES AND HOW TO CURE THEM

lieved is, that after bees have concentrated in large numbers to secure any sweet that may have been exposed, or when a queenless colony has been overcome and cleaned out, the whole mass then, if nothing better offers, throw themselves upon some colony, which even if a strong one, may not be able to repel them. This is entirely erroneous, and it is

well that it is, for if they did make a determined attack en masse, half or more of the colonies in a yard might be destroyed in a short time. What they really do when whatever they have been at work on is about gone, is to scatter or divide up and

look for more. Single bees, and in a few cases I have seen about a dozen, attempt at nearly the same time to enter some hive with an unusually large entrance or one which did not seem to be well guarded as the others.

But if they get in at all, they are soon dragged out again. Meanwhile the entire yard may seem to be getting in an uproar; great masses of bees may cluster on the top and around the sides of the hives that are tiered up in some colonies.

A great number of bees may be

seen flying in and out of the hives which seem so strongly attacked, and many a novice might think the matter beyond his control, and imagne ruin staring him in the face. I have seen old, experienced beekeepers get excited and spray and throw water on these hives on which the robbers were clustered in a frenzied attack, but if a close observation

if one more venturesome than the others does get in, it is roughly handled. The bees flying in and out so lively are the bees that belong to the hive, and they are ready to fight to the death if necessary to defend

**HOW TO GROW HARDY FLOWERING VINES** 

# Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course

frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

#### These Two Women Prove Our Claim.

These Two Women
Cary, Maine.—"I feel it a duty I
owe to all suffering women to tell
what Lydia E. Pinkham's Vegetable
Compound did for me. One year ago
I found myself a terrible sufferer.
I had pains in both sides and such a
soreness I could scarcely staighten
up at times. My back ached, I had
no appetite and was so nervous I
could not sleep, then I would be so
tired mornings that I could scarcely
get around. It seemed almost impossible to move or do a bit of work
and I thought I never would be any
better until I submitted to an operation. I commenced taking Lydia E.
Pinkham's Vegetable Compound and
soon felt like a new woman. I had
no pains, slept well, had good appetite and was fat and could do almost

Now answer this question if you can. Why should a wo-

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

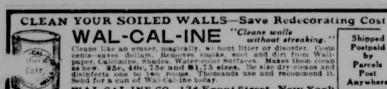

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E.PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: Second-That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third-It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

#### **Letters from Prominent Physicians** addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ills., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory.' Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physiclan who has raised a family, as I have, will join me in heartlest recommendation of Castoria."

### ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura Ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the morning, shampoo with Cuticura Soap and hot water. Shampoos alone may

pillow from possible stain. The next be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura Soap and Ointment sold throughout the world. Sample of each

## Why You Should Buy Go d Plumbing

In comparison with the total cost of a house the cost of plumbing is a small item. Yet the plumbing exerts more influence on health and comfort than any other part of the house equipment.

Good plumbing costs little more than the other kind, but the difference in the service rendered and in the amount of comfort received is great.

There is one way to secure dependable plumbing—a certain way. Get us to install "Standard" ware. Ask us for estimates on your next con-
